

Error Report – Assignment #03

Semester:
Spring 2026

Section:
BCS-2G

April 22nd, 2026

Syllabus:
Digital Logic Design Theory
Syllabus Code: EE-1005

Instructor:
Sir Dr. Muhammad Adeel

Format:**NUID****(whatever below is what you got wrong)**

-Those of you who got full marks you won't be mentioned in here unless you have that feedback for outstanding work

(Here we go again!!!)

25K-0722

Outstanding work and presentation!!!

25K-0684

Outstanding work and presentation!!!

25K-0772

Q10

the theory part where an explanation was expected is missing

Outstanding work and presentation!!!

25K-3054

Q5

Figure 6's representation is incorrect

outstanding work and presentation!!!

25K-0691

outstanding work and presentation!!!

25K-0708

Q3

incorrect

Q10

diagram missing

25K-0527

Q7

just the very last shift you did is incorrect, it should've retained it's memory after clearing

Outstanding work and presentation!!!

25K-0663

Q3

incorrect

Q10

no diagram

plus when you write flipflop it is always better to specify, in this case it behaves like a T flipflop

25K-0561

Q3

incorrect

you missed one out of the eight consecutive high outputs

25K-0883

Q5

Fig 6 incorrect

25K-0653

Q7

incorrect

Q9

incorrect

25K-0742

Outstanding work and presentation!!!

25K-0653

Outstanding work and presentation!!!

24K-0554

Q1

incorrect

Q3

incorrect

Q5

incorrect

Q6

incorrect

Q9

incorrect

25K-0724

Q3

incorrect

25K-0543

Q3

incorrect

25K-0975

Q1

incorrect

Q3

incorrect

Q4

incorrect

Q7 and Q8

I haven't deducted marks on this but have a look at your Q and Q' waveforms why are they contradicting (the base logic for negation that you came across in the initial weeks state that Q' must be the complement of Q, if you make them out of sync in the exam you'll lose out on marks)

25K-0980

Q7

Incorrect

Q8

Incorrect

25K-0810

Q1

Q's complement is drawn, no logic marks deducted only 1 mark for the answer, since I had to be fair with everyone

Q3

inverted waveform drawn, same 1 mark deduction

Q10

you missed the part where the function for the given device was to be written

Outstanding work and presentation!!!

25K-0784

Q3

incorrect

Q5

fig 6 incorrect

Q6

incorrect

Q8

incorrect

Q9

incorrect

Q10

waveform missing

25K-0668

Q3

incorrect

Q8

incorrect

Q9

incorrect

Q10

waveform missing

25K-0819

Q7

incorrect

Q10

you missed the part where the function for the given device was to be written

Outstanding work!!!

25K-0863

Q4

missing waveform partially, but I haven't deducted marks

25K-0820

Q7

incorrect

Q9

incorrect

Outstanding work and presentation!!!

25K-0710

Q8

incorrect

25K-0803

Q3

incorrect

Q9

incorrect

Q10

the waveform is missing

25k-0576

Q1-Q4

no waveform marked partially for correct logic

Q5

again waveform missing, but logic of fig 5 is also incorrect

Q6-Q9

waveform missing

Q10

no waveform and you missed the part where the function for the given device was to be written, which would lead you to a zero but I have still given 2 grace marks for effort

25K-0692 - p

25K-0790 - p

Q1,2,3,5,6,7,8,9,10 all same
